

KNOW A WINTERED FEET DEEP.—The St. Louis Intelligencer publishes a letter from an overland emigrant to California, which gives a fearful account of a tremendous snow storm in the mountains near Carson valley. On what the mountain trail would be, the writer says, he caught hold of the tops of the trees, and was confident they were one hundred feet in height. This is an item that should have a bearing upon the question of a railroad to the Pacific, through the South Pass. Hails buried in snow a hundred feet deep, would stand little chance of removal by any scraper yet invented.

WASHINGTON, GIB.—Some trouble occurred here on Friday, it is said, in relation to the Cabinet. Gen. Cushing desired the State Department, which the President and others objected. Gen. C. then grew angry, packed up, and threatened to leave the same evening. Today it is settled that Mr. Cushing shall have the Treasury, and Mr. Guthrie the Attorney Generalship.

HYMNICAL CRITICISM.—The Springfield Republican says of a recent "Mrs. Ashley in high life" at Washington, that Mrs. Ashley is put down as a gay, dashing, wealthy and beautiful widow, and the bridegroom as the personification of homeliness, and a tremendous cleaver of labor. Mrs. Ashley is the third wife of Mr. Crittenden, and Mr. Crittenden is the third husband of Mrs. Ashley. There is this difference, however, between the two; his homeliness is the work of nature, while her beauty is said to be mostly the work of art.

MURDER IN NEW YORK.—Tuesday evening, an altercation took place in a grocery store, kept by George Strawn, at 374 Water street New York, between Peter Lepsky, alias "French Peter," and a sailor named John McCabe, and from high words a personal combat ensued. McCabe was badly beaten and knocked down insensible. The police were called to the scene, and conveyed the injured man to the Fourth ward station house, where he expired soon after. The parties had been drinking and gambling all night, and the quarrel was in regard to some cards.

Provisions are so dear in California, that some of the miners have been driven almost to desperation. A friend writes us that he sustained life during the first two weeks in January, by paying fifty cents an inch for potato parings. Pretty steep price this, and yet he informs us that he made money by the operation. The water in which he boiled the first two weeks in January, by paying fifty cents an inch for potato parings. COL. BENTON AND THE PRESIDENT.—The New York Times has the following version of the interview between these gentlemen:

An amusing story is told of a recent interview between Col. Benton and President Johnson. The Colonel expressed himself heartily gratified at the result of the election, and very desirous to support the new Administration; but he told the President that he had one man in his Cabinet who would make him ridiculous—a "perfect nondescript, sir," said he—"a perfect nondescript, sir."

A correspondent of the St. Louis Democrat very warmly urges, through the columns of that print, the propriety of forming a new State, to be called Washington, after the Father of his Country, with the following boundaries: He says: Let us form beyond Missouri a great central State. Let its boundary leave Missouri at Fort Scott and traverse west four hundred miles, along the southern rim of the Kansas Basin; thence north to the Platte; thence down the Platte to its mouth; thence by the Missouri River to the starting point.

FATAL RAILROAD ACCIDENT.—An Irish lad about twelve years of age, who was standing upon a side track of the Boston and Worcester Railroad, near the Brighton Depot, yesterday morning, was run over by a freight train which was backing up, and was so much injured that he died in a few moments.

A singular crime has just come to light in the little principality of Lippe Schaumburg, Germany. A country gentleman of large property in that principality died, leaving one daughter and two sons. The daughter, who was heiress to the greatest part of the property, soon after disappeared, no one knew whether she was married, and consequently the two brothers became sole heirs of the estate. Now after the lapse of some 15 or 20 years, accident has brought into light the fact that the daughter still lives, and has been kept imprisoned by her two jealous brothers during all this time in a cellar. The matter has already come into the courts, and the brothers will get their deserts.

From Australia.

Barque Lady Suffolk arrived at this port from Cape of Good Hope, brings per capita advices to the 15th November, which, though not so late, as those recently received by way of South America, contain some news of interest.

The ship Roxburgh Castle had arrived at Cape Town with 170,000 oz. of gold, 8 tons bound to England. Her Captain reported that during his stay in Australia, four vessels had left Victoria with cargoes of gold to the amount of 447,000 oz., valued at £1,780,000.

Many new deposits of gold had been discovered, and it was certain that the soil and rocks rich with this material extended over many thousands of square miles.

New diggings had been found at the Ovens river, but the average yield had not been ascertained. Adventurers from all parts of the world were arriving daily by hundreds.

There were about 150 sail of vessels in Melbourne harbor, but they were thinning out daily.

It was expected that there would be a considerable falling off in the clips of wool this season.

Rents continue to raise enormously at Melbourne, £4 45 a week being charged for a small three roomed cottage.

Provisions, especially flour and also bread, had been rising rapidly in price, and at the diggings are quoted at extravagant rates.

Another account says: "The intelligence from the gold fields continues on the whole encouraging, though the experience of individual diggers, at different points, presents every variety of results, from rapid fortune making to utter destitution. Great numbers had returned penniless, and yet an unceasing stream of adventurers covered the road from Melbourne to the auriferous localities. New diggings, of apparently unequalled wealth, had been opened at the Ovens, the last report from which alone brought down upwards of 30,000 ounces.

The amount of gold brought into Melbourne for the week ending Nov. 11, was 99,347 ounces; exports 162,501 ounces.

New gold diggings have been discovered of apparently unequalled wealth. The rush to the various diggings was enormous, and while some parties were very fortunate others met with no luck at all. At the Spring Creek Diggings, some individuals had dug up £200 and £300 in a fortnight.

A Melbourne paper, speaking of the arrival of the American ship Revenue, from New York, with a cargo of "no-tions," says:

"The Americans appear to have an idea that South Australia and Van Diemen's Land will supply all our wants, and they have not at present any idea of supplying food to this Colony."

At Melbourne half an acre of land had been sold at the rate of \$50,000.

The influenza was so general at Sydney that at one place, out of 500 inhabitants, only 25 were out of their beds.

On the 10th the price of gold at Melbourne advanced three pence.

LITERARY INTELLIGENCE.—Jared Sparks is about to bring out his "Revolutionary Correspondence," in three volumes. Mr. Irving has been occupying himself with researches in the public offices in Washington for his "Personal Memoirs of the Father of his Country." Fletcher Webster is occupied with "Recollections of the Private Life and Conversations" of his illustrious father. The task of editing the "Memoirs and Correspondence of Mr. Webster," is for the most part confined to Mr. George Ticknor. The third folio volume of Dr. Schoellera's great work on the American Indians is in press.

Captain DENHAM has lately sailed in the South Atlantic, a depth of 8-1/2 miles. The pressure of the sea was 815 times heavier than air, and the pressure of the atmosphere being equal to a weight of 15 lbs. on every square inch. A bottle of fresh water being lowered to a great depth in the sea, the pressure drove in the cork, and expelled the contents, the sea water taking the place of the fresh.

A Nantucket paper says it is not generally known that the Consulate at Lania, Sandwich Islands, is worth from fourteen to twenty thousand dollars per annum, but that we believe is the fact. This situation is now filled, as it has been for the last three years, by Charles Hunker, Esq., of that place. There are, we understand, already several applicants for that office.

CANADIAN RECIPROCITY.—The Bill for this measure never received any action. The correspondent of the N. Y. Express says:

It died in what is called the morning hour of the House,—of want of time. This is a subject, however, of great importance, and will attract the attention of the country, and command a vote from Congress. The fisheries on the coast of Nova Scotia and Newfoundland, are of full value for excitement, and even national danger, and something, sooner or later, must be settled respecting them. Meanwhile Andrew's Report, Sabine's account, and the speeches which have been made in Congress, will have the subject of practical men.

There is a growing demand for a freer intercourse with the Canadian Provinces, and that freer intercourse, no doubt, would be useful to both.

QUEBEC, March 9.—Last night a bill was passed by the Lower House to permit lenders to charge what rate of interest they please, but six per cent. only to be recoverable by law.

Gen. Ayres, the military commander at Matamoros, puts on airs occasionally, and issues manifestos, creating death and destruction to his neighbors of Brownsville, if they do not keep quiet. Recently, some shots were fired from the American side of the Rio Grande towards his sentries. On learning the fact, Ayres addressed a pompous note to Justice McLean of Brownsville threatening that if the shots were repeated, he would bombard the town. The following is Judge McLean's reply:—"Official," Brownsville, Jan. 11, 1853. Dear General: Let her rip! (Signed) J. J. McLean, Justice of the Peace Cameron County, Texas."

LOUISVILLE, March 9.—The steamer Emma Watts and Hermann came in collision on the Wabash River on Friday evening last, by which the former was wrecked, and unfortunately lives were lost. The boat, it is supposed, will be raised. [Post and Commercial.]
